SILENTO | WALL

SOLID

With its soft fabric-covered edges and corners, Solid gives a very nice feel to the room. Combine both sizes, and mix with different colours to create your own design.

MIX & MATCH

Build your own work of art that at the same time dampens the sound level and reduces the echo.

Solid is available in five different fabric colours as standard: brown, rust, black-grey, dark grey and grey. Own fabric choice against quote.

EASILY ATTACHED

Solid is easily attached with a Velcro strip that is screwed to the wall.

LOWERS THE NOISE LEVEL IN THE OFFICE

The products in the Silento Wall™ series are sound-tested in 200 m² environments, and achieve substantial noise suppression in the most common frequency ranges for office environments.

SUSTAINABILITY AND ENVIRONMENT

The basic material of all absorbers in Silento Wall™ is comprised of 100% recycled PET. The fabric is called Gabriel Hush, and is certified in accordance with Standard 100 by OEKO-TEX®.

Both the fabric and the basic material are tested and approved in relation to Euroclass fire ratings (B-s1, d0).

PERFORMANCE		ART.NO
Solid 600	Brown	67400-200
Solid 600	Rust	67400-201
Solid 600	Black-grey	67400-202
Solid 600	Dark grey	67400-203
Solid 600	Grey	67400-204
Solid 1200	Brown	67400-300
Solid 1200	Rust	67400-301
Solid 1200	Black-grey	67400-302
Solid 1200	Dark grey	67400-303
Solid 1200	Grey	67400-304
