SILENTO | WALL

MODERN

Silento Wall™ Modern is a playful wall absorber with a heated surface where you can change around the product as much as you want, to obtain a design suited just to you. Modern is just as suited to offices as to reception areas.

Supplied in two packs (one with raised and one with recessed designs).

MIX & MATCH

Build your own work of art that at the same time dampens the sound level and reduces the echo.

Modern has a heated surface in black and grey.

EASILY ATTACHED

Modern is easily attached with a Velcro strip that is screwed to the wall.

LOWERS THE NOISE LEVEL IN THE OFFICE

The products in the Silento Wall™ series are sound-tested in 200 m² environments, and achieve substantial noise suppression in the most common frequency ranges for office environments.

SUSTAINABILITY AND ENVIRONMENT

The basic material of all absorbers in Silento Wall™ is comprised of 100% recycled PET and tested and approved in relation to Euroclass fire ratings (B-s1, d0).
